Stampede Showcases 11 New Product Lines in Latest Catalog

Annual Publication Once Again Helps Dealers Market Their Businesses

BUFFALO, N.Y., March 15, 2007— Stampede, a value-added distributor of presentation and home theater technology, today released its annual international product catalog. The addition of many new product lines this year, including Pioneer plasmas, Breathe Audio, Hi-Fi Works, Soundcraft, JBL, AKG, DVDO, Calibre UK, Denon, Monster Power and Key Digital, has made Stampede's catalog more extensive than ever. The 156-page, full-color book not only showcases Stampede's product offerings, but also the many value-added services the company offers its dealers.

As part of its value-added marketing services, Stampede is once again enabling its dealers to use the catalog as their own custom marketing tool. Dealers may purchase unbranded copies of the catalog and simply affix a sticker with their contact information before distributing them to their customers.

“Everything we do at Stampede is focused on helping our dealers succeed,” said Kevin Kelly, Stampede's president and chief operating officer. “This year we have added many new product lines which our dealers are embracing, and we are once again providing a professional and yet affordable catalog they can use to build their businesses. Their success is our success.”

The new book premiered last week at EHX in Orlando and will be available free to NSCA visitors this week before being made generally available to dealers. NSCA Expo visitors are encouraged to visit Stampede at booth 1259 to pick up their own free copy of the 2007 Stampede catalog.
