## **Stampede Announces Exclusive Distribution of Toshiba LCD Displays**

BUFFALO, N.Y., October 25, 2005 — Stampede, a leading distributor of presentation and home theater products, today announced an agreement with Toshiba Display Systems, a recognized leader in higher-end display technology, to distribute a select line of Toshiba LCD flat panel displays.

This is the first time Toshiba Display Systems has entered into a distribution agreement for this particular product line. The LCD flat panel displays are available exclusively at Stampede, effective immediately.

“We’re pleased to be the only distributor of this select product offering from Toshiba,” said Mark Wilkins, president, Stampede. “Toshiba Display Systems are widely known for their innovative technology and excellent value. Stampede, Toshiba and our dealers will benefit from this partnership.”

“All of us at Toshiba Display Systems are very happy and excited to enter the distribution channel with Stampede,” said Dominick Cuce, Sales Manager, Toshiba Display Systems. “One look at the specifications will reveal that our LCD Monitors are at the higher-end of the market. It is necessary to entrust our distribution to a world-class, value-added distributor that can meet the technical needs of dealers.”

Toshiba LCD flat panel displays provide vital information to a variety of businesses and organizations that rely on the timely and accurate dissemination of information. Uniquely suited for constant operation and long-term reliability as needed in digital signage, Toshiba’s display products are used for military, Homeland security, police/fire stations, traffic management, weather, flight information display, retail advertising and public areas such as libraries and post offices.

Known for its value-added distribution, Stampede is a leading distributor of presentation equipment including LCD projectors and thin panel displays. Stampede provides a complete range of brand name presentation equipment to a variety of audio/visual, computer, home theater resellers and integrators in the United States, Canada and Latin America.
