DRONE VIDEO SYSTEMS MANUFACTURERS BY PRODUCT CATEGORY

Enthusiast Drones
AEE
DJI
Odyssey Flying Machines
Parrot
Walkera
Yuneec

Commercial Drones
AerialTronics
Draganfly
Drone Volt
Freefly
Intel® Falcon™ 8+ System
Marques Aviation
X-Fly

Add-Ons
Agrowing
Amimon
Energen
Epson
FLIR
Foxfury
Go Professional Cases
Hoverfly
Trackimo

Command & Control Software
Dronifi
KSI Data Sciences
VideoBank
Vidyo

Command & Control Hardware
Christie
Flymotion
Hitachi
LG
NEC
Samsung

Professional Services
Consumer Priority Service
Hogan Lovells
UA Solutions
Unmanned Vehicle Insurance
Unmanned Vehicle University

[INTRODUCING DRONE VIDEO SYSTEMS (DVS) FROM STAMPEDE]
Connecting the dots for integrators

Drone Video Systems from Stampede
Revolutionize collaboration, communication, and decision making processes by providing cost effective, time and life saving solutions for professionals in all walks of life.

Let's use the analogy of a video conferencing system. Integrators specialize in identifying the requirements associated with a complex system like video conferencing and developing a solution. They do not just sell cameras and call that a video conferencing system, or if they do then they aren't in business very long. In the same manner, talking about a drone without talking about all of the associated components is missing the mark. That is the current state of the market in the drone Industry; companies are all pitching individual products and not pulling together an entire solution – until now!

DVS is just a customizable compilation of all the various components, both hardware and software, solution applications, command & control, to include training and regulatory certification. On a daily basis, integrators deal with complex video conferencing systems and or complex video camera surveillance systems, so there is absolutely no reason they should not also bedealing with complex video camera systems that float in the sky.

Applications

Law Enforcement
- Fire Protection
- Search & Rescue
- First Responders
- Perimeter Security
- Disaster Management

Education Research
- K-12 and Higher

Construction
- Facility Management

Surveillance
- Oil Line Inspections
- Infrastructure

Production
- Film and Television
- Live Event Production

Inspections
- Transportation
- Mapping & Surveying
- Agriculture
- Mining
- Real Estate, Commercial and Residential
