## **Stampede Announces Distribution Agreement with Kramer Electronics**

*Kramer distribution amplifiers now part of Stampede's renowned product offerings*

BUFFALO, N.Y., April 18, 2006 — Stampede, a leading value-added distributor of presentation and home theater technology, today announced a distribution agreement with Kramer Electronics, an international pioneer in the signal processing industry. This agreement adds the entire line of Kramer's high-quality distribution amplifiers to its extensive product offerings from top-name manufacturers.

“The Kramer line of distribution amplifiers is part of the complete accessory and component solution that makes Stampede a one-stop-shop for all of our dealers' needs,” said Mark Wilkins, Stampede president and CEO. “When combined with the many value-add services we offer, these products enable our dealers to build more margin and expand their reach.”

Compact and cost-effective, each distribution amplifier can be configured and tailored to meet the needs of any application and market. All models are HDTV compatible, support high bandwidths and are backed by a multi-year warranty. The new line is now in stock at Stampede's warehouses across the country and is available exclusively to dealers in the U.S.

### **About Kramer Electronics**

Kramer Electronics produces creative, reliable video, audio and computer signal processing solutions for customers throughout the world. Over its twenty-five year history, Kramer has been at the forefront of inventions and developments in the signal processing industry including the world's first combined video/audio processor.
