Stampede Announces the Release of Its First Product Catalog

BUFFALO, N.Y., March 2, 2005 — Stampede, a leader in value-added display technology distribution, announces the release of its first product catalog. Resellers and Dealers can request a copy on our web site www.stampede-us.com or by calling 800.398.5652.

The 132 page full-color catalog highlights the various types of products and services available at Stampede. The semi-annual catalog includes a glossary and projector lamp reference chart.

Known for its value-added distribution, Stampede is a leading distributor of presentation and home theater products including LCD projectors and thin plasma monitors. Stampede provides a complete range of brand name equipment including NEC, InFocus, Mustang, Hitachi and Mitsubishi to a variety of audio-video and computer resellers in the United States and Canada. Stampede has grown to become a leading distributor of presentation technology in North America with offices in Buffalo, N.Y. and Toronto, Ontario and five warehouses throughout the United States and Canada.
